

## Rotating Equipment Sealing

### Application Specific Packings

1725 - Food processing grade, PTFE filament

1730SC - White, heat resistant, thermoset fiber/silicone rubber core

1740 - Non- asbestos, Kevlar yarn

1761 - Non-staining, white, chemical packi

1830-SSP - Slurry packing

328 - PTFE chemical packing

329 - Stern-Lon Flax for marine industry

370 - High temperature, carbon yarn

425 - Food grade, PTFE filament

477-1T - Non-contaminating, non-staining carbon yarn.

DigesterPak - Carbon reinforced PTFE / graphite

Style Two - Lubricated graphite yarn

Injectables

CMS 2000 - A high purity, fiber reinforced sealant

CMS 2000-FP - A high purity, food grade, fiber reinforced sealant

### Plantwide

1727 Multi-Lon - Synthetic, thermoset fiber lubricated with PTFE

1730 Mill Pack - A synthetic, thermoset, non-staining (white) fiber packing

1760 - PTFE yarn lubricated with graphite.

1830 - Expanded graphite PTFE yarn

412-W - White, synthetic composite yarn

Innerlube - Synthetic composite yarn with increased lubrication.

**Supersets & Spiral Trac** - Chesterton packing with the EnviroSeal SpiralTrac

## Valve Sealing

### Bonnet Seals

5900 - High pressure graphite seal

### High Performance

1724E Control Valve Kit - PTFE sealing system for AOV's

5100 - Split carbon sleeve

5150 - Live-Load disc springs

5300(GTPI) - Die-formed inhibited graphite ring

5800 - Low friction, die-formed graphite wedge packing

5800E - WedgeSeal with carbon yarn end rings

5800E Control Valve Kit - Sealing system for AOV's

5800T - Graphite wedge packing

One-CI - Wiper and anti-extrusion ring

Valve Sealing Program - Developed for Nuclear and Fossil Plants, Refineries and Chemical Plants

### Valve Packings

1400R - Reinforced braided graphite tape

1600/1601 - Reinforced Graphite Tape

1724 / 324 - Non-hardening PTFE yarn

401 - Wire reinforced braided yarn

477-1 - Continuous filament carbon yarn

GraphMax™ - Structurally reinforced graphite packing

### Multi-Purpose

1400R - Reinforced braided graphite tape

477-1 - Continuous filament carbon yarn

GraphMax™ - Structurally reinforced graphite packing

## Flange Sealing

### Flange Live Loading

5500 - Flange Bolt Disc Springs  
5505H - High strength disc springs  
Semi-Metallic Gaskets  
Camprofile – semi-metallic  
Semi-Metallic - Spiral Wound  
Steel Trap™ - Metal/Graphite Gasket

### Sheet Gaskets

100 - Red rubber  
119 - Reinforced rubber  
122NN - Reinforced diaphragm sheet  
124 - Oil resistant rubber  
162 - Fiberglass Cloth  
184 - PTFE  
195 - Synthetic Fiber  
198 - Graphite  
199 - Reinforced Graphite  
345 - Ceramic Packing  
359 - Reinforced Graphite  
450 - Synthetic Fiber  
455 - Aramid Fiber  
457 - Carbon Fiber  
459 - Reinforced Graphite  
ECS-B - PTFE Food grade  
ECS-T - PTFE  
ECS-W - PTFE

### Tape Gaskets

160 - Fiberglass Tape  
161 - Twisted Fiberglass Rope  
165 - Reinforced graphite  
175 - Silicon foam  
185 - Expanded PTFE Joint Sealant  
289 - Fiberglass tape  
Lid / Lock - PTFE based seal

## Specialty Equipment

### Sootblower Sealing

3000 - Molded PTFE / graphite ring sets  
5700B - Sealing system for sootblowers  
Valve Bonnet Seals  
5900 - High pressure graphite seal

## Tools

### Installation

174 - Packing cutting knife  
176 - Tamping Tools  
178 - Ring packing cutter  
Gasket Cutter Tool - Complete Kit  
Sure-Cut - Packing cutter

### Removal

242 - Stiff packing tools  
253 - Flexible packing extractors  
Water Jet - Packing and gasket remover
