

## Hydraulic/Pneumatic Seals

### Ancillary Devices

- 16K - Replaceable, split bearing coils for presses
- 17K - Replaceable, split bearing coils for presses
- 18K - Replaceable, split bearing bands for cylinders
- 19K - Replaceable, split bearing bands for cylinders
- 9K anti-extrusion rings - Anti-extrusion or backup rings
- WR - WR Custom Wear Rings

### Compression Seal

- 20KD Face Seals - O-ring upgrade for static sealing
- Custom Cap Seal (CCS) - Bi-directional, single cavity sealing system
- 20K Rod and Piston Seals - Heavy duty bi-directional, low speed hydraulic sealing

### Piston cup

- 7K - single-acting piston cup with supporting brass disc

### Piston seals / stacked sets

- 27K - Single acting, split stacked hydraulic set
- 8K - Single acting, split stacked hydraulic set

### Piston Seals / u-cups

- 10K - Single-acting, u-cups for hydraulic/pneumatic presses
- 22K - Single-acting, u-cup for hydraulic cylinders/presses
- 22KE - Single-acting, u-cup eliminates low pressure leakage
- 22KN - Single-acting, u-cups for hydraulic/pneumatic presses
- 23K - Single-acting, u-cup for pneumatic equipment

### Rod seals / stacked sets

- 11K - Single acting, dual polymer split hydraulic seal
- 600 - Single acting, split stacked hydraulic set for worn equipment
- 8K - Single acting, split stacked hydraulic set
- 27K - Single acting, split stacked hydraulic set

### Rod Seals / u-cups

- 10K - Single-acting, u-cups for hydraulic/pneumatic presses
- 22K - Single-acting, u-cup for hydraulic cylinders/presses
- 22KE - Single-acting, u-cup eliminates low pressure leakage
- 22KN - Single-acting, u-cups for hydraulic/pneumatic presses
- 23K - Single-acting, u-cup for pneumatic equipment
- 6K - Single-acting, u-cup for worn hydraulic equipment

### Wipers

- 21K - Abrasion resistant wiper for hydraulic and pneumatic applications
- 5K - Abrasion resistant wiper for hydraulic and pneumatic applications
- 21K Canned Wiper - Abrasion resistant press fit wiper for hydraulic and pneumatic applications

## Rotary Seals

### Bearing/Gearbox protection

30K - Continuous design, high performance lip seal

33K - Split seal design for bearing and gearbox protection

### Custom Designs

30KC - Cartridge design for sealing powders and viscous fluids

### Restrictor Bushing

14K - restrictor bushings for rotary equipment

## Spring Energized Seals

100 Series - Cantilever spring energized seals, highly dynamic applications

200 Series - Elliptical coil spring energized seals, accommodates excessive tolerances or misalignment

300 Series - Helical wound spring energized seals, slow speed and static applications

400 Series - High performance, multi-purpose rotary seals

500 Series - High performance, multi-purpose stacked sets

## Custom Seals

### Custom Designs

Custom Designs - Custom seals for the most demanding applications.

## Service Programs

### Equipment Upgrade Program

Equipment Upgrade - Equipment upgrade program, tailored to meet the specific needs of your application.

### SpeedSeal® Program

SpeedSeal® Program - Increased service to end users through localized production facilities
